

CHEMICALS & MINERALS

GIASOLUTIONS SA
Solutions of the future

CHEMICALS & MINERALS SUPPLY

Adding Value to Your Business, for number of years we have created sustainable value for our employees, shareholders and community by providing customized chemical-based solutions to satisfy our customer's needs.

We distinguish ourselves as not just a supplier of products off the shelf components, but as a partner of choice.

We forge relationships by providing superior quality products and excellent service at competitive prices.

We proudly supply chemicals and minerals with Certificate of Analysis COA together with its Material Safety Data Sheet MSDS where applicable. The following not limited to are in supply:

- Caustic Soda
- Lime
- Manganese
- Magnesium oxide

- Cobalt
- Copper
- Coal – All grades

- Acids (Sulphonic, Nitric, Acetic, Phosphoric)

- Various grades of water treatment chemicals (Anti-foam etc.)

Our mission is to provide a bespoke customer-required solution by striving for excellent operations, innovation, and happiness for our employees, customers, and partners.

Follow us on these social media platforms and be UpToDate on what we are doing.
